started hog-raising CCV as part of the children and youth's training for possible future livelihood. The farm, which is located at the rear part of the village, has been developed since April 2016 to give the farm animals a proper shelter. A path walk within the farm area was constructed for easy access and safety of the children and youth going to the farm. As of today, various animals have been acquired and in youth take turns their responsibilities as 'farmers' with the assistance of a couple of employees. Currently, there are chickens, cows, goats, lambs, pigs, rabbits and turkeys thriving in the farm. Eventually, these farm animals will provide the village kitchen with its supply of organic dairy products and meat.

### The CCV Farm

## ADOPTION

99

Throughout the whole year, a total of eleven (11) toddlers were placed in permanent homes with childless couples / families. Nine (9) were placed intercountry while a set of twin boys found their niche with a local couple. These children were:

Robie Paz Rontos The Netherlands 30 April 2016

Goshen Micarandayo Canada 18 May 2016

> Josea Naval Spain 03 August 2016

Benjamin Orande USA 20 September 2016

> Lucky Taher The Netherlands 22 October 2016

Rexmar Clarice Cantor Sweden 23 November 2016

Zargon Gabr<mark>iel Benedicto</mark> Sweden 23 November 2016 Sean David Badoya USA 05 December 2016

Niño Laguisma Philippines 28 December 2016

Angelo Laguisma Philippines 28 December 2016

Israel Jhayreidd Villarin France 11 January 2017

## **ADMISSION**

During the entire year, a total of seven (7) babies were referred and admitted to Chosen Children either for permanent or temporary shelter. Out of the seven babies, five were boys and two were girls.

### **OBITUARY**

John Paul Morales

Joshua Andrey Cal

John Paul or JP, as he was fondly called, died on the 15th of July 2016 due to seizure disorder. JP was 17 years old at the time of his death. He was under the care of the Foundation since he was 11 months old. Joshua Andrey or Andrey, as he was referred to, died on the 15th of October 2016 due to seizure disorder. Andrey was 12 years old at the time of his death. He was admitted to CCV when he was 1 year and 6 months old.

John Pio Geruela

Richard Pozo

John Pio died on the 20th of December 2016 due to pneumonia. He was barely a month old at the time of his death.

Richard died on the 1st of February 2017 due to pneumonia. He was 14 years old at the time of his death. Richard has stayed in CCV since he was 2 months old.

A total of four (4) clients (children and youth) died during the course of the entire year. General cause of their deaths was due to complications of their congenital conditions.

The Village is exceedingly indebted to the persons above, organizations, schools etc. for sharing their resources and time to children and youth in the Foundation during the past year.

## TSEC

The School for Chosen
Children (TSCC) takes pride as a
learning facility that provides
specialized educational and
vocational programs to the children
and young adults at Chosen Children
Village.

TSCC provides a holistic approach that encourages independency and social ability to its select students. May Jean, Isabel, Charlie, Michael and Niño were provided with further training as they belong to the circle of performers in the village.

Livelihood and vocational training programs are still a top priority. The students at TSCC continue with their production of fabric conditioner and liquid soap for dishwashing for the village's use.

Also keeping the students busy is the newly established farm located at the rear part of the village where domestic animals are being raised. Eventually, the offspring of the farm animals will provide additional food for the village. Still another source of organic food for the children is the vegetable garden carefully maintained by select youth who work alongside an employee.

# ARANTZA Rehabilitation Center

The Arantza Rehabilitation Center provides services which are necessary for the cognitive, physical and social development of the children and

youth in the Village.

This year, the Rehab Center witnessed significant developments in the six (6) babies and toddlers who received physical therapy services. Four (4) teens and young adults are enrolled and receive continuous therapy in the maintenance program. The teens and young adults were given treatment programs specifically tailored for their needs, based on their conditions and diagnoses.

Among the babies and toddlers, Vicente is finally able to walk with minimal

supervision without any assistance.

Teresa and Yassie are now independent in bed mobility. They were able to roll from lying to face-up to face-down (supine to prone) and vice versa without assistance. They were able to sit independently without support for indefinite periods of time, and both have good sitting balance. Further, they were also able to maintain good sitting balance on unstable or moving surfaces.

Yassie was able to assume and maintain a quadruped position and he is also able to creep. Both Teresa and Yassie can stand while holding onto stable furniture. Yassie was able to walk with the aid of a walker with minimal assistance and supervision. Teresa was able to walk with moderate one-hand assist. Likewise, Yassie was able to walk with two-hand assist.

Thea Cyprian, Angel and Ejay are independent in bed mobility. All three babies were able to roll from lying to face-up to face-down (supine to prone) and vice versa without assistance. They were able to pull themselves from lying to sitting with moderate assistance. They have good head and fair trunk control. Ejay was able to sit and stand passively (with assistance). Thea and Angel were able to pull themselves from lying or sitting to standing with assistance.

Some examples of the cases and conditions being handled in the rehabilitation center are cerebral palsy (CP), Down syndrome (DS) and global developmental delay (GDD).

## IMMERSION Program

The Foundation continues to offer its Immersion Program to students and professionals alike who are willing to spend a significant day with the children and youth in the Village. For the whole year, the following organizations, schools and universities have immersed in the Village:

- \* Adventist University of the Philippines Academy (AUPA)-Silang, Cavite

  \* Balian Community College-Laguna
  - \* Capt. Wilijado P. Abuid Foundation, Inc. (CWPA)
    - \* Centro Escolar University (CEU)-Makati
- \* De La Salle University (DLSU)-College of St. Benilde Multimedia Arts
  - \* De La Salle University (DLSU)-Manila
  - \* Eulogio "Amang" Rodriguez Institute of
  - Science & Technology (EARIST)-GMA Cavite
    - \* Loyola College (Victoria, Australia)
  - \* Mapua Institute of Technology (MIT)-Intramuros
    - \* Municipality of Carmona / Persons with Disabilities Affairs Office (PDAO)-Cavite
    - \* New Sinai School and Colleges-Laguna
      - \* Rotaract Club of Manila & Marianas
- Society of Pre-Med Students University of the Philippines Los Baños (UPLB)

## **INTERNSHIP**Program

CCV's Internship Program continues to attract On-the-Job Trainees (OJTs) from different schools and universities in the province and from nearby Metro Manila. It was always a pleasure to welcome students from Cavite State University (CvSU), which has sent Psychology Majors from its strategically located campuses. Batangas State University likewise sent their Psychology students for the first time to be part of the Internship Program of the Village. The trainees rendered a maximum of eight (8) hours of work per day with the children and youth in the village.

Further, the Caregiving Department of University of Perpetual Help in Las Piñas and Molino campuses sent more OJTs this year. The aforementioned university has started to send their Psychology Majors also to render the required OJT hours.

CCV extends its invitation to other schools and universities to be its partner in an important and rewarding work through training in clinical and therapeutic medical perspective.

## VILLAGE CONSTRUCTION DEVELOPMENT

•••••

Two facilities in the village were given general make-over from May 2016 to September 2016. The Arantza Rehabilitation Center and Cottage 10 both needed replacement of its gutters, damaged window screens and a general repainting was likewise done. Cottage 10 is currently the home for the male independent living youth. The repairs of both buildings were made possible through the generous support provided by Mr. & Mrs. Helmkamp and Panorama Enterprises.

Cottage 10 & Arantza Rehabilitation Center

Kurt Swart, an American working in the Kingdom of Saudi Arabia, visited the village for the first time sometime in September 2016. During his initial visit he decided to fund the renovation of another cottage. Thereafter, the repair of Cottage 1 began in January 2017. All the hyperactive girls in the village will soon occupy this newly-repaired cottage.

3

The remodeling of Cottage 4 started in September 2017 and eventually this was inaugurated in January 2017 through the continued support of the Spouses of Heads of Mission (SHOM) and DOW Chemical Pacific Limited. CCV is truly blessed that after years of waiting for this cottage to be repaired, the aforementioned donors generously funded the renovation of the said building. This cottage now houses all the toddlers in the village.

Cottage 4

Cottage 1

#### CCV PROJECTS IN LINE

• • • • • • • • • • •

Year by year the different facilities and structures in the village are continuously being maintained and repaired primarily for the safety of the children and youth. All these repairs are made possible through the continuous support of the donors. For the next year, following are the upcoming projects:

The 2nd cottage in the village will be rehabilitated as soon as the repair of Cottage 1 is completed. The repair will be made possible through the generosity of Davis Elkins Foundation

#### Cottage 2

The 7th cottage will soon be called the CCV Memorabilia Hall. Eventually, this cottage will hold all the historical documents and paraphernalia of Chosen Children since it was founded in Las Piñas Metro Manila in 1988.

#### Cottage 7

Funds received from Dow Chemical Pacific Limited after the dedication of Cottage 4 in January 2017 will be diverted to the repair of Cottage 11 where the male hyperactive children and young adults are presently housed.

Cottage 11

Chapel fence remodeling and the transferring of the CCV entrance gates are two more upcoming projects in 2017. The Maintenance Department of the village will focus on these projects after all the major repairs in the facilities are completed.

Chapel fence

## OPERATIONAL

#### Sources of Funds for the children

Many of CCV's long-time donors never miss to include the Foundation in their regular charitable activities. This is the reason why almost 90% of the operational funds came from monetary and sponsorship donations. Word of mouth is really important since other donors came to the village by way of referrals from those who have been to the village, personally met the children and saw the scope of work being done for the children by the Foundation. With overwhelming support from its donors and sponsors, CCV is able to provide a quality of life to each child and young adult living under its care.

Another year has passed and the Child Sponsorship Program of Chosen Children is still alive and kicking. For the entire year, there was an increase in the number of sponsors, from 471 to 483. CCV's donors, sponsors and friends continue to recruit more sponsors who can provide for the needs of the children and youth in the village. Further, the current working Board of Trustees play a remarkable role in signing up potential donors / sponsors willing to give their time and resources for the Foundation. The Child Sponsorship Program used to be the main source of funding of the Foundation. Through the years, the program has taken a back seat and is now the second source of operational funds. Nevertheless, the Foundation is fortunate to always have the support and trust of its benefactors.

Shown in the table below is the total number of sponsors from the different parts of the world and the total number of children being sponsored from April 2016 to March 2017:

#### **Primary Sources of Funds**

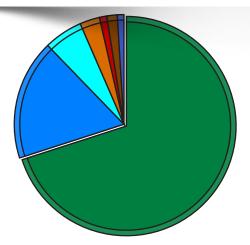

COUNTRY	SPONSORS	SPONSORED CHILD / REN
CANADA	2	2
DENMARK	1	1
GERMANY	1	1
ITALY	1	3
KOREA	1	1
PHILIPPINES	404	617
SINGAPORE	1	1
SPAIN	56	63
SWITZERLAND	1	1
UAE	1	1
USA	14	16
TOTAL	483	707

Monetary donations and the Child Sponsorship Program are the two main sources of funds for the children as shown on the chart below. For this year, there was an increase of almost 17% from monetary donations from 53.08% to 70.03%. However, sponsorship collection from the program decreased by 6.53% from 24.27% to 17.74%. Many donors chose to give a one-time donation rather than continued support for one child. One factor for this trend is the average age of the children is increasing year after year.

## TOTAL PROGRAM SOURCES OF FUNDS

• • • • • • • • • • • •

On the other hand, the village received various collections this year from its friends and/or donors through outreach activities, immersion training and other special functions. The table below shows the comparison for two years' source of funding for the village.

■ Monetary Donations	70.03
Sponsorship	17.74
Nutrition	5.71
Volunteers	2.93
■ Rehabilitation	1.08
■ TSCC/Pinili	1.55
Miscellaneous	0.96

	2015-2016	2016-2017
MONETARY DONATIONS	53.08%	70.03%
SPONSORSHIP	24.27%	17.74%
MONETARY DONATIONS (SPECIAL PROJECTS)	9.56%	
NUTRITION	6.76%	5.71%
VOLUNTEERS	3.49%	2.93%
REHABILITATION	1.22%	1.08%
TSCC/PINILI	0.96%	1.55%
MISCELLANEOUS	0.66%	0.96%

#### CCV Program Disbursement 2016-2017

Sustaining the Residential Program of the village is not that simple as it covers 2/3 of the disbursement of the village, while the other 1/3 helps sustain the other programs beneficial to the children. The Administration disbursement never exceeds beyond its required limit. It only shows that most of the funding goes directly to needs of the children. This year's disbursement under Special Projects had increased a bit from 1.7% to 3.7% and this was due to the purchase of appliances, equipment and farm animals needed for the village's improvement.

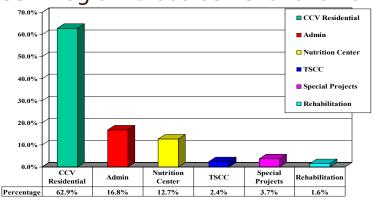

#### Operational Disbursements for the Children

When you say 'Child-month' it refers to the caring for one child for one month. Therefore the caring of that same child for one year is equivalent to 12 'child-months'. The total 'child-months' served this year is 862 versus last year's 903. This was true because we have more children who were either adopted or who passed away Therefore the number of children during this report period. and for for this supported cared became lesser report period, monthly cost of caring for one child is P10,757.75. The table below shows the 2-year comparison of the Total Residential Disbursements which represents all expenses incurred in taking care of the children. As indicated, the cost/child/month for the year 2015-2016 was adjusted due to one village expense that is not part of the residential program.

RESIDENTIAL OPERATIONAL DISBURSEMENTS FOR 2016-2017				
	Apr16-Mar17	Apr15-Mar16		
Total Residential Disbursements (Adjusted for one-time special project)	P9,273,179.06	P9,963,086.52		
# of Child-Months	862	903		
Cost / Child / Month	P10,757.75	P11,033.32		

This chart shows the CCV Program Disbursements for the period of April 2016 to March 2017.

#### CCV Program Disbursement 2016-2017

#### **Trust Fund**

#### Update

Saving up for the children's future has become part of our mission as we see them grow older each year. Thus far, the Trust Fund Program has been successful for the past nine (9) years since it was put up in 2008. For this year, there were 43 individuals and companies / organizations who contributed to this program and the list is now at 362 donors. The table below shows a complete roster of the Trust Fund donors who have supported this project:
