

OCTOBER 2023

Angels Crossing

Monthly Update From the Chosen Children Village

A Day that gave them the experience of a Lifetime

Eight (8) microbiologist from Intertek Testing Services Philippines Inc. got the chance to be immersed in the village for the whole day on October 14. They were assigned in different areas such as Residential, kitchen, garden, and farm. They also help in the production of Pinili Products.

Below are the things they can share after immersing in the village:

"Chosen Children Village has a systematic and well organized system, rules and regulations which are implemented very well and religiously done repeatedly."

"This one is the best institution I have ever seen in my life. Children here are blessed because of those people who founded the institution and those who continuously do unconditional service and love for all the children here."

"This is the first time I did an immersion. It was fruitful, blissful and worth it. It's like living life in the company of children with full of hearts. It's like walking on air whenever I am with the children (special mention: Dave, Oliver, and MJ). I admire how much passionate they were on their specific tasks."

"Having the opportunity to work closely with the children of CCV was an experience we'll never forget. Upon observation in the CCV children they conducted their lives with significant smiles on their faces and telling that "CCV is our paradise"."

"Our hearts are full of joy and love while doing this memorable experience of our life. We will definitely cherish this experience. Our hearts and mind were opened that even though these kids have challenges or special needs, they can still perform, act, and love each other."

Thank you so much!

Pinili is the gift of Choice

Chosen Children Village Foundation, Inc. is so grateful to the companies and groups for their generosity in sharing their support to CCV children.

We would like to extend our sincerest gratitude to SouthTop Hauling Services headed by Mr. Ace Villanueva and Mr. Richmond Paras for appreciating and taking all Pinili products: Christmas wreaths handcrafted by our functional girls Kim, MJ, Daisy Mae, Isabel and Pinky; art works carefully painted by Niño, tote bags, and other products like Pickled ampalaya and Chili Garlic prepared by the SD Learners.

Surely the children's hearts are full knowing that the gift items they've created with care and love are being appreciated.

More power and God bless!

It's on December 3, reserve your spot!
