

MAY 2024

Angels Crossing

Monthly Update From the Chosen Children Village

Shine they did!

The "Chosen to Shine Concert Season 2" on May 25, 2024, was a resounding success. Despite the rain, the evening was filled with talent, inspiration, and dreams, captivating both the audience and the performers.

For many of the children, it was their first time on stage, stepping out of their shells to showcase their remarkable abilities.

The concert not only highlighted their musical talents but also ignited endless possibilities for these young stars to explore and dream big.

The event was a testament to their courage and potential, leaving everyone inspired by what these children are truly capable of achieving.

"Chosen to Shine" not only highlighted the children's musical abilities but also emphasized the foundation's commitment to providing a supportive and enriching environment. This event beautifully demonstrated how with love, care, and opportunities, every child can indeed shine brightly, regardless of their abilities. ***

Behind this scenes...

Antonio's by Chef Tony of Balay Dako and Antonio's Bed and Breakfast provided the Ice Cream and their famous Rainbow Bread filled with cheesy pimiento. ***

Immersive Learning

The National University-Dasmariñas 2nd year Psychology students recently participated in an immersive experience at the Chosen Children Village Foundation as part of their program.

Divided into four groups, each group spent a day at the foundation engaging in various activities. On May 22, 23, 28, and 29, a total of 187 students immersed themselves in the daily lives of the residents.

Activities included bracelet making, painting, raking, sweeping, storytelling, and assisting with feeding. The first two groups enjoyed watching a concert rehearsal, while the latter groups played volleyball and basketball with the functional children.

Additionally, board games were a hit among toddlers and semi-functional children. Professor Jay-ar Baybay, who coordinated this initiative, emphasized the importance of early exposure to differently-abled children to enrich the students' understanding and empathy. This immersion provided invaluable hands-on learning and fostered meaningful connections between the students and the children at the foundation. ***

Happy Birthday!

Thank You Donors!

Our heartfelt thanks to the ff
