Monthly Update From the Chosen Children Village

CELEBRATING FAITH AND HOPE

At Chosen Children Village Foundation, Inc., Palm Sunday and Easter are not just annual traditions—they are heartfelt celebrations that bring the spirit of hope, renewal, and love into the lives of our differently-abled children.

Palm Sunday marks the beginning of Holy Week and helps our children reflect on Jesus' journey through uplifting activities like palm waving, storytelling, and prayer. It teaches humility, kindness, and compassion—virtues we nurture every day.

Easter, the joyous celebration of Christ's resurrection, reminds us of new beginnings and the victory of love over adversity. Through community worship, creative activities, and shared meals, our children experience the warmth of belonging and the reassurance of God's unwavering love.

These moments help reinforce the Foundation's mission: to restore dignity, instill faith, and create a loving home for all. ***

"MAMA"

It may feel strange to be called "mom" when it's not your child. But on a bright and sunny day at the Chosen Children Village Foundation Inc., with the residents' cheerful faces looking up at us, it felt just right—and truly heartwarming.

We were told that the children refer to staff members as their moms and dads so they can still have a sense of family within the community. It was our pleasure and privilege to contribute to this, along with the items we brought as a donation to the foundation. During our visit, we spent quality time sharing stories and laughter while participating in immersion activities with the residents. They even surprised us with song and dance performances, tugging at our heartstrings even more with their rendition of MAPA.

Our sincerest gratitude to the Chosen Children Village Foundation. We at The Pack will forever cherish this wonderful experience with these angels.

A MOTHER'S LOVE

Mother's Day holds special significance at Chosen Children Village Foundation (CCVF), a haven for abandoned and differently-abled children in the Philippines. For these children, many of whom have been deprived of a traditional family structure, Mother's Day is more than a calendar event—it's a celebration of unconditional love and nurturing.

The foundation honors the selfless caregivers and staff who serve as mother figures, providing not only physical care but emotional warmth, guidance, and stability. This day gives the children an opportunity to express gratitude and feel connected to a broader sense of family and belonging. Activities like card-making, song presentations, and shared meals foster joy and reinforce the value of love and compassion.

For CCVF, Mother's Day is a powerful reminder of the transformative impact of caregiving and community, highlighting the enduring role of maternal love in the healing and growth of every child under their care.***

OCEAN OF JOY

A visit to Manila Ocean Park Adventure, sponsored by SimpleBIZ, was a heartwarming and unforgettable experience for the children of Chosen Children Village Foundation, Inc. (CCVFI). For many of these differently-abled and abandoned children, such an outing is a rare opportunity to explore the world beyond the village walls.

The trip offered not just fun and excitement, but also meaningful learning as the children interacted with marine life, watched aquatic shows, and discovered the wonders of the ocean. More than just a day of adventure, it was a moment of joy, freedom, and inclusion—things every child deserves.

The smiles, laughter, and wide-eyed wonder spoke volumes about how much this experience meant to them. Thanks to SimpleBIZ, the children felt valued and remembered, reinforcing their sense of belonging and self-worth. It's events like these that bring hope, healing, and unforgettable memories to the young hearts of CCVFI.***

BRIDGING HEARTS AND MINDS

Immersion programs between National University Dasmariñas Campus and Chosen Children Village Foundation, Inc. (CCVF) play a vital role in shaping compassionate, socially aware students. By engaging with differently-abled and abandoned children, students gain firsthand experience in empathy, patience, and inclusive care.

This meaningful interaction fosters personal growth, breaks stereotypes, and cultivates a deeper understanding of social responsibility. For the children of CCVF, the presence of students brings joy, companionship, and a sense of connection to the outside world. These shared experiences build bridges of kindness and learning, empowering both students and children to see the world through a more humane lens. ***

Hannah passed away May 03, 2025 and became one of Chosen Children Village Angels. She turned 31 last May and gave a good fight despite her challenges.

We would like to thank you dear sponsor of Hannah whom she received attention and love through your support. We hope that you can continue your support by choosing another child.
