Monthly Update From the Chosen Children Village

THE GOAL OF CHOSEN CHILDREN ORPHANAGE

By: Benson Chua

"Chosen Children Village Foundation, Inc. aspires to provide a permanent home for the abandoned, neglected & surrendered children who are mentally & physically challenged. It aims to provide a training ground for the growing children under its care to maximize their potentials & also help them become productive & self-reliant members of the society despite their disabilities & limitations."

After touring the place & "allowing" us to also SEE the "separated areas" for the violent & very severe

I didn't take pictures as I saw the "very severe" on wheelchair & can't move nor eat being fed & loved

Likewise, "the violent" in another separate section and yet taken cared of as only a very good mother would & with its own nice recreation area...

Others not as severe & as violent are trained well to be productive & do some work in the orphanage...

IN ALL TYPES of special children... EVERY special child calls Lita "MOMMY" with much affection & ❤️

Benson & I were MOVED to see the different types of the 67 special children being cared by MS LITA

Helping them to function "normal and best" of their conditions.... likewise for those "severe & violent" in not being able to function are cared with labor of ❤️ by keeping all of them for life from baby.

I promised my apo, Noelle to raise for her PhP100k but when Benson Chua and I saw "the work of Ms Lita" taking care of the special children for 37 years... we gladly raised it to PhP300k

Likewise, in knowing the need of Ms. Lita for food items & gas for cooking, I called my good friend, Ms. Caress of Feeding Metro Manila for them to talk...

Yes, friend helping friend is connecting the dots 🧐 ***

FULL CIRCLE OF LOVE

Joshua, once a cherished child at Chosen Children Village Foundation, recently returned—not alone, but hand in hand with his adoptive family.

Years ago, Joshua was embraced by a loving home abroad, and today, he brings with him a story of hope fulfilled. His visit was an emotional homecoming—filled with warm hugs, joyful reunions, and heartfelt memories.

His family toured the village that once nurtured him, meeting caregivers, teachers, and friends who helped shape his early years. Joshua's journey is a beautiful reminder of the lasting impact CCVFI has on every child's life.

It speaks of healing, second chances, and the boundless potential within each special child. His story inspires current residents to dream big and believe in the future.

As Joshua continues to grow in love, his return reinforces the deep, enduring connections that begin at Chosen Children Village and live on forever. ***

Joshua with his Family
